BOROUGH COUNCIL

# Services for Vulnerable Adults – Accredited Providers

## 2022/2023

Integrated Health & Social Care Services

## 1 Introduction

The information provided in respect of social care providers i.e. address details, service user groups, is based upon information obtained from the Care Quality Commission (CQC) and individual care providers themselves.

Agencies providing this type of care must be registered with the regulatory body for care services, the Care Quality Commission (CQC). These agencies are regularly inspected and reviewed to ensure that minimum standards are met.

The detail provided is based upon information obtained from CQC and individual providers and includes contact details including whether the provider has an email address.

Information on provision can change and should you wish to check any registration detail you are advised to contact CQC to establish that the care provider holds the appropriate registration.

You can contact CQC on 03000 616161 or alternatively via the website by using the link below:-

[www.cqc.org.uk](http://www.cqc.org.uk)

## 2 Care Standards

All care providers must by law be registered with CQC and are inspected against a set of essential standards of quality and safety. CQC carry out regular inspections and the results of these are available via the CQC website.

CQC are currently introducing a rating system for providers and the result of this will appear on the appropriate page of the CQC website for each provider. From April 2015 providers are required to display details of their ratings as they become available.

The Council also undertakes its own performance monitoring designed to ensure that standards are maintained at all times.

## 3 Service Provision

The listing below indicates the type of service(s) a provider can provide. This will predominantly be a support service within a supported living setting where care can be provided on a 24 hour, seven days a week.

## 4 Service User Group

This indicates the service user group for which the provider is registered to provide care support services. The information will also identify where a provider is registered to provide services for people other than vulnerable adults, for example, children and Young Persons.

Should you require any assistance in respect to this information you can contact the Procurement and Contracts Team on 01744 673492 or via email at **[procurement&contracts@sthelens.gov.uk](mailto:procurement&contracts@sthelens.gov.uk)**

The services are personalised for service user community support and supported living. We aim to provide an alternative to residential care or nursing home, and we empower our service users to choose the amount of support, how and when they have support so that they live an optimum life. This is achieved through promotion of standard of excellence in which Good Care Practices are followed. We have a vision of transforming lives and aim to deliver services, care and support with robust set of values. In addition, care and support is provided by highly trained and competent support workers.</p>
