

Secondary Schools Arts and Culture Offer 2023/2024

CulturEd are now offering two options for sessional activities to secondary schools, as well as 4 package options so you can tailor our offer to best suit your school's ethos and vision.

Creative Careers Sessions

Our offer for secondary schools now encompasses a focus on careers within the creative industries, in line with the governments Gatsby benchmarks guidance. Our practitioners have a wealth of experience working across numerous sectors of the creative industries working either as freelancers or running their own businesses. These sessions will explore our practitioners' career path, entrepreneurship, transferable skills, and a more in depth look at their experience within their specific creative sector. In addition to this student will take part in a practical activity linked to the practitioners artistic practice.

By the end of the session your students will have a better understanding of what it means to be a freelancer/ run a creative business and the skills needed to succeed in a competitive industry. These sessions will be informative as well as fun and hands on and are flexible in length, meaning that practitioners can work with 2-4 classes across one school day.

As part of your school buy in you will receive access to information videos from each of our practitioners to help you choose who you would like to work with. You will have access to these videos for the entire school year so they can be incorporated into your wider careers support.

Process & Play Workshops (Art, Drama, Music, Dance)

Choose from our range of quality assured practitioners to deliver Process & Play Workshops, themed around their area of artistic expertise. This is an opportunity for students to explore new art form, enhance their creative skillset and allow space for experimentation. The focus of these sessions is on the process creating rather than the pressure of a desired outcome.

Our practitioners can work with up to 3 classes in one school day, depending on the art form and your school timetable. There is also the option of a 1-hour family session after school, when the students can work creatively with their parents/carers.

Schools can choose which practitioners they would like to work with either for a Creative Careers session or a Process & Play Workshop. Please see our accompanying practitioner offers document for more details.

Further careers support

As a CulturEd school you will be able to bring up to 60 students to our Creative Careers Event in a town centre location providing the students with information about careers in the Creative

Industries. Alternatively, you may opt to have a presence from a CulturEd representative at one of your own Careers events.
